## "Mr. Rose's Speech"

"I am running for family rights. I believe that parents should take care of their children. My wife and I have taught our children that all parents should teach their kids. I believe in spanking children. I believe that the parents can train/(teach) their kids whatever they want.

I believe that the government should not control its people. That the people rule the government. I am running because I don't want this country to start off at a bad start. Look at Russia. It inaugurated a hard-core communist. It is growing worse and worse. Russia is allowed NOO, not a BIT, of religion, freedom, ect. All because of a bad start, - but things can start at a good start and go down, down hill. Might not even get back to good. Just low, low, low. All animals are created equal. It is the right of the people to remove or ~~can~~ change its government.

Now as you might have known I am a Christian. The people rejoice with a wise leader, but are sad with an un-wise leader. That is in my own words. I know it is in Proverbs. Well as I said the people rule. They should rule."
